He received the sympathies and tenderest attentions, however, at every point, and last week was so far recovered as to start north via Atlanta and Nashville. Arriving at Atlanta on the 12th instant, quite ill indeed, Governor Colquitt—who is the brother as well as the governor of men—immediately drove Dr. Clark from the hotel to his own home, the executive mansion. Here the good wife and family of the governor have been so attentive to their unfortunate (and yet fortunate) guest that he is convalescent.

Dr. Clark has suffered much pain, but the untiring visits of Dr. Alexander have been effectual, thus far, in prolonging overworked life. The business has generally been a sort of haphazard, in which the main thing to be considered was the commissions. We have heard of late much praise of the systematic way in which the business of Hurt & Low, agents, was conducted, and as this praise usually came from large real estate owners we determined to call and look through their office and give the public the benefit of our observations.

We found both members of the firm at

their posts, and when we had explained the object of our visit they stated that they were ready to give us any information in their power.
"In the first place," said one of the firm,

Het it be understood that we are simply Hurt & Low, agents. There is no such firm as Hurt & Low. We are Hurt & Low, agents. Our bank account is kept as agents, and is the such that the subject only to our checks as agents. If either of us, or both, were to die or get into trouble, the money of our patrons is safe as it is deposited by us as agents. We stick to our business and to our business as agents. We buy and sell for our patrons on commission, and never buy or sell any on commission, and never buy or sell any property either as individuals or a firm. We frequently see fine bargains in real estate, but we never take them. It is our business to buy and sell for our patrons— not for ourselves. We are, therefore, sim-ply and solely, Hurt & Low, agents." ply and solely, Hurt & Low, agents."

Each has its own set of books, and the whole is managed with a nicety and correctness that has its own set of books, and the whole is managed with a nicety and correctness that is not surpassed in any bank in this city. We do not believe there is a real estate of fice in America that has so methodical. simple, and complete a system. There are certainly none in the south to equal it. In the renting department for instance,

every detail is kept with the most scrupulous exactness. At any time, any client can step in the office and set at a slance precisely how his account stands at that moment with every tenant. He can see where every cent for repairs has been spent, and where every dollar was collected from the tenant. At the close of the month le is handed a check, and the check is accompanied with a bundle o vouchers accounting for every expenditure on account of the property, even down to a nickel. The importance of this exact system cannot be over-estimated. Besides being absolutely assured of prompt returns the landlord who is so fortunate as to have his business in the hands of this firm, is given a precise account of every cent spent

There was a lively and somewhat stormy debate on this point. Its adoption would be redudiation of the debt. It was claimed on the other side that the five at was claimed on the other side that the five mills tax would produce a sufficient revenue to support the state government and pay two per cent interest on the present debt, or four per cent if the debt should be scaled to fifty per cent. The low rate of mortality, if we take its density into consideration, is even more striking than its magnitude. The mortality should be 35.2 per 1,000 were not special systems of drainage and cleanliness in use by which the mortality in the years 1874-78 is reduced to 22.8. The consequence is that the deaths are as low as 83,695, and the births being 129,184 the registered births exceed the deaths by 45,489, which exceeds the estimated increase of population by 1,796. the deaths by 45, 489, which exceeds the estimated increase of population by 1,796. The density of the population is continully increasing. While in 1842 there were 16,367 persons to a square mile, there were 28,602 to a square mile in 1876; and that alone would cause an increase of mortality, which would, according to the law that has been deduced from the returns for all England, raise the mortality from 24.5 in 1806.

land, raise the mortality from 24.5 in 1840 '44 to 26.2 in 1874-'78.

Thus the deaths should have been, at this rate, 91,423 a year in the five years, 1874-78, whereas they actually were 79,245. This may be fairly ascribed to sanitary improvements. In 1840-45 the water supplied to London was taken partly from the Thames at Hungerford bridge and Battersea, where it was mixed with the sewage of London, while in 1874-78; it was taken from the Lea. while in 1874-'78 it was taken from the Lea, the New river and the Thames, higher up the river, beyond the sewer contamination. The great system of sewerage has been car ried out in its main outlines, and the whole of South London has been drained. All this has reduced the mortality from 262, this has reduced the mortality from 26 2, the corrected rate, as has been shown the increase of density would imply, to 22.8 per 1,000; so 12,178 lives are saved annually. Atlanta had 794 burials last year, and up to June 10th, the year, 287, which would show 650 dea of for 1879 at the present rate, or 16.25 per .000. Are we progressing? There is no subject so important as the subject of sanitary and hygienic regulations. I am interested in Atlanta, in every sense of the word. I am building me a house here that I hope to make my permanent home. I own her real estate and her secunities. This is the only way to do it. You may say it will cost something—not much—and then the question is, how much will it cost not to do it? It will cost millions.

Now, I do not desire to criticize the city council. They have done well—probably as well as they could. But we must have a general and sweeping referred on the control of the co rities, and am interested in her present prosperity. "It will not our system of sewerage do?"

Why, look at it. Where does our filth go? It is carried a short distance through the sewers and is then emptied into the open air within the city limits. But suppose we carried it further. Where could we carry it to? Where could it be finally disposed of so that it would not injure any one?

The flesh, bones, feathers, beak, wattles, entrails—all, had been resolved back into the original earth. I then took up the earth and rubbed it carefully in my hands, and discovered after a careful search two or three little pieces of bone. I was astounded at the absorbent powers of the earth. It is wonderful. It just chews up and grinds up and digests and resolves back into dust everything that is given to it. While leading police officials do not hesitate to admit that the most startling and sensational revelalations are to be forthcoming, they carefully conceal any positive evidence which they may have collected and are formulating for presentment to the coroner's jury. It is not concealed, however, that, on the evidence to be submitted, one or more arrests may be ordered of persons who have been summoned as witnesses in the inquest. It is an open secret that they are debating the advisability of arresting Dr. Hull himself. The Tribune says the following himself. This verdict does not surprise us. True, a man should be justified for punishing unto death the base invader and destroyer of his domestic peace and happiness. But it was clearly shown by the evidence in this case that the wife was a wanton, frequenting the lowest dens of infamy, dressed in men's apparel, and in the company of lewd fellows. Moreover, that she even threw off the panopty of her husband's name, and took a fancy soubriquet. No attempt was even made to assert her innocence of the direst sin that can stain the life of man or woman. Indeed, even the husband admitted it, whist clinging still with dishonored him. What excuse, then, can be urged for the shedding of blood, not in behalf of injured innocence, but established guilt.

Who are Still Fighting.

Congressman Blackburn at Arlington.

The war was fought upon a difference of construction of the organic law. The men of the north said the union was indissoluble, while those in the south said that, being a part of the compact of states, they had a right to withdraw from the compact if they so desired. The verdict has been rendered, and he who was honest will be no less steadfast in abiding by the results. He will not withhold one whit of honest devotion from that flag (pointing to the large union flag in front of the portico.) We have accepted the conditions, and it is the duty of all honorable men to live up to them. PATENT MEDICINES. 45 Years Before the Public. THE CENUINE DR. C. McLANE'S

CELEBRATED

LIVER PILLS

FOR THE CURE OF

Hepatitis, or Liver Complaint, DYSPERSIA AND SICK HEADACHE

Symptoms of a Diseased Liver. DAIN in the right side, under the

A edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder blade, and it frequently extends to the top of the shoulder, and is sometimes mistaken for rheumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory. accompanied with a painful sensation of having left undone something which ought to have been done. A slight. dry cough is sometimes an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is satisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above symptoms attend the disease, but cases have occurred

where few of them existed, yet exam-ination of the body, after death, has

shown the LIVER to have been exten-

sively deranged.

AGUE AND FEVER. DR. C. McLane's Liver Pills, in CASES OF AGUE AND FEVER, when taken with Quinine, are productive of the most happy results. No better cathartic can be used, preparatory to, or after taking Quinine. We would advise all who are afflicted with this disease to give them a FAIR TRIAL. For all bilious derangements, and as a simple purgative, they are un-

COMPTROLLER GENERAL'S OFFICE,
ATLANTA, GA., May 21st, 1879.

To Whom it May Concern:
The following list of unreturned wild lands,
made up from returns sent to this office by the Tax
Receivers of Georgia, will be advertised and sold in
compliance with law. This list will be advertised
"once a week for four weeks." and at the expiration Receivers of Geargia, will be advertised and sold in compliance with flaw. This list will be advertised "once a week for four weeks," and at the expiration of said time, fi. fas. will be placed in the hands of the sheriff of the county where the same is located, and there advertised and sold as other tax sales. This advertisement is intended to give owners an opportunity to pay tax on land in this list, and save further cost, by writing to me and ascertaining the amount of tax and cost, and paying the same at this office. Doubtless mistakes and errors have been made by tax receivers in making up list of unreturned wild lands and sending same up to this office, or typographical errors may exist in this long list of figures. If so, opportunity is now given for correction of all such mistakes by sending to this office short affidavits, that the lot or lots advertised as in default (describing same by number, district, section and county), has been returned and tax paid, and when, to whom, and in what county paid; and if, on examination of the books of this office, it be found correct, the error will be promptly rectified. These lands should bear their part of the burden of taxation, and they will be sold if the tax is not paid. Respectfully,

W. L. GOLDSMITH,
Comptroller General.

DR. CASE'S BLOOD PURIFIES.

DR. M. W. CASE—Dear Sir:—This is to certify that I have been using your Liver Remedy in my family for some time past, and I find it an invaluable remedy for all diseases of the liver and stomach, and would not be without it. I cannot recommend it too highly.

Yours truly,

Mrs. H. SIPE, Washington, D. C.

Atkins House, Jacksonville, Florida.

Dr. M. W. Case,

Sir—I am pleased to bear testimony to the greatment of your Liver Remedy as a CURE FOR DYSPEPSIA. For a number of years it could not eat a full meal that would not be thrown off my stomach undigested. I suffered all the horrors that can be imagined with sick-beadache and colie. Four months ago your Liver Remedy and Blood Purifier was recommended to me. It was the first medicine that gave me relief. I have taken six large bottles of the Remedy, and have no more trouble with the DYSPEPSIA of its attendant symptoms.

Mrs. ELEANOR PRATT.

THE GEORGIA BRANCH OF

Licensed under the Patents of Prof. Alex. Gra-ham Bell., is now prepared to serve the people of Atlanta and vicinity with that most wonderful invention, THE BELL SPEAKING TELEPHONE, invention, THE BELL SPEAKING TELEPHONE, now so extensively in use in other cities.

What does this "Exchange" do?

First. It places the Bell Telephone, with an Electric Signal Bed, in your office, store or house, connecting the same with the Central Office, thus enabling any one present to have instant speaking communication with any subscriber to the Exchange. The voice is plainly recognized and the conversation will not be heard by a third party. You can order goods from the grocer or butcher or druggists or dry goods store; call or consult your physician; call a carriage, or communicate news or directions for work as well as by going yourself, and, ofcourse, with an immense savin g of time and exertion. Any one who can talk can use the Telephone, and the office is open day and night.

Second. The Exchange maintains an efficient and reliable Messenger Service. Prompt, active and intelligent Messengers can be had on call, at any time, to go upon any errand for any conceivable purpose. Eates: Per hour 25 cents; halt hour, 15 cents; fifteen minutes, or .ess, 10 cents. Third. We will send, immediately, on call, hacks or carriages to any 'art of the dity at regular rates.

Fourth. We durnish, pron.ptly, teams and trucks for heavy hauling, or express wagons for light work, as cheaply as can be done.

Fifth. Messages will be sent to any part of the city by Telephone, both for subscribers and others, in the same way as by telegraph, written on blanks prepared for the purpose.

How can I become connected with the Sex and sell, \$36.00 per year, payable in advance. Private Residences, two Telephone, and you will be promptly waited upon.

What does it Cost?

For piaces of business the rental for Signal Bell and two Telephone is \$46.00 per year, payable in advance. Private Residences, two Telephone, and Bell, \$36.00 per year, payable in advance. The wires and instruments are put upand kept in repair at our expense. The outlay for the rental is not an extra expense, but an actual saving of sometimes many fold the amount of

THE PEACH CROP.

It is now very evident that the peach crop of Georgia will be a very fibril one. As yet but few plattles have been brought to this market this season and they have been very inferior. Fruit-growing has greatly increased in this state, still there is vast room for more crebards and better few its common for more crebards and the common for more crebards and the common few its com —Isom Daniel went north yesterday to purchase a stock of boots and shoes. There are various remedies for these pests, and some of them have proven very benecial. We have never tried it, but have frequently heard that a few radish seed sowed in the hills will keep melon and cucumber bugs from plants. Earth worms, out worms and white grubs are kept off by cut worms and white grubs are kept off by sowing salt broadcast on the soil. Dry slacked lime is also effectual. For cabbage SIDEWALK NOTES.

CHICKENS. Breed from good chickens and take care of them. Do not keep too many in one lot, at least let there be space enough for their accommodation. When crowded in a hen accommodation. When crowded in a hen house, it is almost impossible to keep them healthy, for lice and fevers are apt to be generated. Crowd them up in a house, and the egg production will fall off, chickens will decline in health, and vermin will pretty much take possession of them. As we said above, get good stock, feed them judiciously, house and water them, keep them free from vermin, and chicken raising and keeping will pay a profit. Overstocking of visiting ladies and gentlemen, Professor H. C. White, of the state university, delivered the last of the series of high school lectures. His subject was, "The Love of Science." He treated in a manner at once Science." He treated in a manner at once and pleasant, entertaining and should be kept clean and neat. Select good, healthy young trees, of moderate, well-ripened growth good one year olds are best), and trim them as you would dwarfs, into pyramids, branching not more than two feet from the ground. As soon as the young growth is six or eight inches long, pinch it with the thumb and finger. This will cause it to ripen sooner. It is best to select the hardiest varieties. Cultivate early in the season, but do not cultivate, or only very lightly, after midsummer. Pears are a paying investment when properly cared for.

FISH BAISING:

We are frequently amused at opening letters addressed to this department of The Constitution, asking questions about some political move, or "what will congress do for the great agricultural interest?"

Notes of Wesleyan Commencement. Macon, Monday evening June 18.—Be-fore the lest lingering light of day had faded from the west, many edger fares were gathered in the wollings chapel to hear the ssays of the first section of the senior class The grand strains of "Marche de Nuit" (played by Misses M. Little, Weaver, Peter son, and Pringle) announced the coming of those thirteen bright and radious you ladies appointed as the evening readers.
Prayer by Rev. Frank Branch opened the exercises of the evening alief which, an Instrumental duett, "La Fanfau Des Drag-ons (by Misses Brewster, Peterson, Rush, Brock) was rendered in a l vely and cefrect

The first essay, "The Three Boxes," was read by Miss Laura T. Bennett; of Camilla, in a very clear and pleasant voice. Although seriously indisposed, the young lady pleased her hearers by her well-written.

Miss Sallie R. Brantley, of Sandersville Miss Sallie R. Brantley, of Sandersville, chose for her topic, "There is a Turneddown Page in Every Life." Her manner of reading was a pleasant one, her voice very sweet; and her composition a good one.

Miss Nisbet, in her inimitable way, sang very sweetly, "When Sparrows Build."

Miss Ella D. Brown, of Burke county, proved to us that youth is not the only bright season of life. "The Evening of Life Brings its own Light," was her theme, and

From 1843 to 1858 we manufactured Gins at Columbus, Georgia, under the firm name of E. T. Taylon & Co., afterwards Clemons, Brown & Co., and made what was then known as the Taylor Gin. During the year 1858 we removed to this place, where we have been exclusively engaged in manufacturing Gins ever since. With long experience, the best labor saving machiaery, and skilled workmen, we possess advantages not enloyed by any other manufacturer in our line for producing the mass work for the Lass money. Presses, Engines and complete outfit furnished when desired. Address BROWN COTTON GIN CO., New Landon, Conapr2 d&wom Or T. J. LOWE & BRO.
